

## A KNIFE-FREE PACKAGING SOLUTION.

*“We lose thousands of dollars in merchandise per year due to damage from box cutters and knives, not to mention the injuries to employees’ hands. There has to be a better way.”*

IPG®’s new RipCord™ technology ensures the safety of the user and the contents of your packages, eliminating the need for dangerous knives and box cutters!

- Reduces employee injury and product damage
- Adaptable to many competitive case sealing machines
- Highly visible, striped cord replaces knives and box cutters for easy case opening

### Application Video

See how RipCord™ is the best solution for safe, easy, blade-free access to the contents of your packages. Scan the QR code with your mobile device to watch the video!
